

Cabin Crew Attestation

Initial and renewal examinations

The examination includes the following tests and medical examination:

Laboratory tests

A urine test is taken before every medical examination. An ecg is taken when necessary. Also an ecg is taken from applicants 40 years of age and from the age of 50, every 2-5 years. The laboratory tests are taken at Aava Aviapolis which is located at the same address as Finnair Aeromedical Centre.

Medical examination

In order to receive your medical certificate immediately, we will need copies of your previous medical certificate, application form and medical statement. If the examination took place at Finnair Aeromedical Centre, the documents are not required. If you have an eye-glass prescription, please bring a copy of it with you.

You can book your appointments for the laboratory tests and medical examination on weekdays from 12:30-3:00pm by phone, tel. +358 9 8184831.

Prices and payment

Laboratory tests at [Aava Aviapolis](https://www.aava.fi/hinnasto) <https://www.aava.fi/hinnasto>
